

## High School Students taking Dual Credit coursework

Dual credit courses will help you no matter what your goals are, but choose dual credit courses that fit with your academic and career goals

### Not Sure what dual credit courses to take?

This guide lists the recommended courses high school students can take to maximize their earned dual credits. This is an unofficial guide, and courses and their equivalent are subject to change. The Registrar’s Office at TCCNHS will conduct an official review by evaluating and awarding transfer credit after a student has been accepted to the program.

There are some important things to consider when taking dual credit courses:

- The grades you earn in dual credit courses does count towards your grade point average (GPA) and may impact your admission and Financial Aid eligibility at TCCNHS. Dual credit courses and credit hours will be documented on your official TCCNHS transcript; however, they will not be calculated in your overall TCCNHS GPA.
- To have any college credits earned through a dual credit program evaluated for college credit at TCCNHS you must submit an official transcript from the college or university where you earned the credit. Dual credit grades listed on your high school transcript will not suffice as proof of credits earned.
- Only courses which you earned a “C” or better will transfer in for credit at TCCNHS.
- Not every course taken through dual credit programs may earn credit at TCCNHS. Only courses that apply towards your area of study or major will be transferred in. See our helpful dual credit guide below of suggested courses to take on to maximize the amount of advance standing credit.

Remember high school students can also earn credit by obtaining a predefined equivalent score on Advanced Placement tests (AP), and College Level Examination Program (CLEP) tests. See the Credit by examination transfer guide for more information.

<b>Gateway Community College (Kentucky)</b>	<b>The Christ College of Nursing and Health Sciences</b>	
	Equivalent Course	Program of study
BIO 137: Human Anatomy & Physiology I	BIO 111: Anatomy & Physiology I	Bachelor’s of Science in Nursing
BIO 139: Human Anatomy & Physiology II	BIO 112: Anatomy & Physiology II	Bachelor’s of Science in Nursing
CHE 130 plus CHE 135: General and Biological Chemistry with Lab, or CHE 140 plus CHE 145 or General Chemistry with Lab	CHEM 105: General, Organic, and Biological Chemistry	Bachelor’s of Science in Nursing
PSY 110: General Psychology	PSY 101: Intro to Psychology	Associate’s of Applied Science in Medical Assisting  Bachelor’s of Science in Nursing
PSY 223: Lifespan Development	PSY 110: Lifespan Development	Bachelor’s of Science in Nursing
BIO 225: Medical Microbiology	BIO 121: Microbiology	Bachelor’s of Science in Nursing
ENG 101: Writing I	ENG 101: English	Associate’s of Applied Science in Medical Assisting

		Bachelor's of Science in Nursing
MAT 105: Applied Mathematics	MAT 102: Quantitative Reasoning	Associate's of Applied Science in Medical Assisting
AHS 115: Medical Terminology	HLSC 101: Medical Terminology	Associate's of Applied Science in Medical Assisting  Bachelor's of Science in Health Care Administration
BIO 135: Basic Anatomy and Physiology with Lab	BIO 102: essentials of Anatomy and Physiology	Associate's of Applied Science in Medical Assisting
CIT 105: Introduction to Computers	TECH 101: Technology Skills and Applications	Associate's of Applied Science in Medical Assisting
